Foreword

This publication is one of a monthly series containing data on medical assistance payments made under Title XIX of the Social Security Act (Medicaid). Information is compiled and reported by each State and/or jurisdictional agency administering an approved Title XIX program on Federal Report Form SRS-NCSS-120: Monthly Statistical Report on Medical Care. Currently there are 54 such programs in 49 States, the District of Columbia, Guam, Puerto Rico and the Virgin Islands. Arizona has not initiated a Title XIX program and Massachusetts has a separate State agency for blind recipients.

Prior to January 1974, similar data were collected for the mid-month of each quarter and midmonth quarterly reports have been published in this series since May 1967.

Reports for the months of March, June and September will include quarterly summary data and in addition, reports for December will include annual summary data.

Information presented include medical payments by form of payment, payments to medical vendors by type of service, number of recipients in whose behalf medical vendor payments were made, and data related to screening services under the Early and Periodic Screening, Diagnosis and Treatment Program.

This report was prepared by Annie J. Mayfield and Robert L. Terrell, under the direction of Henrietta Duvall, of the Medical Statistics Branch, National Center for Social Statistics.

Introduction

Medicaid (Title XIX of the Social Security Act) is an assistance program designed to provide medical assistance to specified groups of needy individuals. Such persons are classified into two main groups according to their maintenance assistance status, (1) those who are authorized to receive money payments for their basic necessities under public assistance programs such as Supplemental Security Income and Aid to Families with Dependent Children, and (2) those who are not receiving maintenance assistance payments even though they may, in fact, be eligible. There are extensions of the maintenance assistance status categories but uniform procedures do not exist for reporting such data. There are four basic eligibility requirements for medical assistance: (1) age 65 and over; (2) blindness; (3) permanent and total disability; and (4) membership in families with dependent children. In addition, some States have exercised the option of including other needy persons who do not fall into any of the above categories. Such recipients are classified as 'Other title XIX' recipients in the accompanying tables. Also, 'essential persons' (usually spouses) may also be eligible for medical care. For money payment recipients, these persons are usually classified according to the same eligibility factors as the recipient spouse.

Generally, payments are made out of Medicaid funds to vendors (providers) of medical services, directly or through a fiscal agent as the direct results of claims filed by the provider after services are rendered. Data presented in this publication are generated as an adjunct to the Medicaid claims processing and payment operation. Thus, information is based on bills paid and not services rendered during the month. Consequently, the data provided through this process are not professed to represent a true picture of the incidence of illness among Medicaid eligibles and are subject to fluctuations unrelated to the provision of medical care. Monthly data are collected and presented to meet pressing current demands for minimum information on medical care financed under title XIX. However, States are required to provide more significant and detailed annual data on the numbers of persons receiving medical services, the number of units of such services and the corresponding amounts of payments.

Except for payments, data related to screening services are not necessarily generated through the claims payment process. Numbers of individuals screened are usually based on services actually rendered during the report month. As a result, payments reported for screening services may be unrelated to persons receiving such services.

HIGHLIGHTS

Medical Assistance (Medicaid) Financed Under Title XIX of the Social Security Act - January 1977

Payments made out of Title XIX funds in January 1977 totalled $1.269 billion, a decrease of $112 million from the record high in December 1976. Average monthly payments for the twelve month period ending in January equalled $1.294 billion, a slight decrease (0.1 percent) from the year ending in December.

Approximately 8.69 million recipients 1/ had vendor payments totalling $1.232 billion made in their behalf.

There were concurrently 310,164 Medicaid eligibles enrolled in health maintenance organizations whose premiums totalling $11.8 million were paid out of Title XIX funds.

Persons Served

The percentage distribution of persons for whom medical payments were made by basis of eligibility and money payment status for January is as follows:

Basis of eligibility	Money Payment Status		
	Total	Money Payment authorized	Money payment not authorized
	Percent		
Total	100.0	76.3	23.7
Aged 65 and over	23.1	14.0	9.1
Blindness	0.5	0.4	0.1
Permanently and totally disabled	15.4	11.9	3.5
Children under 21 in families	33.0	30.0	3.0
Adults in families with dependent children	21.8	19.9	1.9
Other Title XIX under 21	3.1	---	3.1
Other Title XIX age 21-64	3.2	---	3.2

1/ Includes estimated recipient counts for Connecticut and Georgia which were based on average payments per recipient from prior months. Pennsylvania recipient count was inflated to reflect prescribed drugs.

More than half (54.8 percent) of the recipients for whom vendor payments were made were members of families with dependent children. Children under 21 in families and other Title XIX recipients under 21 accounted for 36.1 percent of recipients. Recipients eligible on the basis of age 65 and over accounted for 23.1 percent of the caseload. Recipients who also received money payments outnumbered non-money payment recipients by more than 3 to 1. Among members of families with dependent children under 21, nine out of ten Medicaid recipients also received AFDC money payments.

Medical Payments by Groups of Persons Served

As shown below, the distribution of payments differs significantly from the caseload distribution. Payments for persons not receiving maintenance assistance are nearly equal to those for money payment recipients. The single largest proportion of payments (35.9 percent) are made on behalf of recipients aged 65 and older who are not also recipients of maintenance assistance. Such recipients represent only 9.1 percent of the caseload. Payments for these recipients, to a large extent, are made to medical inpatient facilities which represent the more expensive types of medical services. Only 18.1 percent (about half of the corresponding recipient proportion) of payments are made on behalf of children under 21 years of age. The second largest proportion of payments (26.8 percent) are made on behalf of the permanently and totally disabled.

Basis of eligibility	Total	Money Payment Status	
		Money payment authorized	Money payment not authorized
	Percent		
Total	100.0	54.0	46.0
Aged 65 and over	35.9	10.2	25.7
Blindness	0.6	0.4	0.2
Permanently and totally disabled	26.8	17.0	9.8
Children under 21 in families	15.4	13.0	2.4
Adults in families with dependent children	15.5	13.4	2.1
Other Title XIX under 21	2.7	---	2.7
Other Title XIX age 21-64	3.1	---	3.1

Payments by Type of Service

Inpatient services comprised 71.0 percent of medical vendor payments in January; hospitals (31.5 percent), skilled nursing facilities (17.0 percent), and intermediate care facilities (22.5 percent). Physicians' services and prescribed drugs accounted for 8.8 and 6.3 percent of the total payments.

Screening Services

During January 139,100 children were reported as screened under the Early and Periodic Screening, Diagnosis and Treatment Program. About fifty-six percent of the children screened were six years of age or older. Fifty-six percent of the children screened had referrable conditions uncovered and eighty-four percent with such conditions uncovered were referred for diagnosis and treatment.

ANNOTATIONS

1. The following definitions apply to symbols appearing in the detailed tables:

   --- indicates no data reported.
   Z indicates that the percent was less than 0.05.

2. Arizona has no Title XIX program and is excluded from the tabulations.

3. Oklahoma discontinued its agency pooled fund beginning July 1976.

4. Connecticut and Georgia did not report recipients or payments by maintenance assistance status and basis of eligibility of recipient and are excluded from all applicable tables. Colorado reported recipients and payments by basis of eligibility only.

5. States do not always report premium or per capita payments into the SSA system for aged and disabled recipients separately. Payments reported under the aged category include payments for the disabled. There is variance from month to month in States reporting SSA and HMO premium payments because in some cases, such payments may be made less frequently than monthly (Table 1).

6. Pennsylvania recipients for prescribed drugs are not included in the tabulations. New Hampshire payments for medical transportation and Colorado payments for dental service are reflected in Tables 1 and 5 only.

7. Data for Idaho and Wyoming in Tables 2-14 include children screened under the EPSDT program and payments for such services.

8. In addition to Colorado, Connecticut and Georgia; Massachusetts, Nevada, and Pennsylvania are excluded from Tables 10-13 because children and adults in families were not reported separately. Illinois and West Virginia were able to report children and adults separately but were unable to differentiate medical vendor payments between adults and children in families. These States are excluded from the total percentage computation in Table 11. Colorado, Pennsylvania and Wisconsin did not differentiate Other Title XIX recipients by age and are excluded from Table 14.

9. In some States, two or more types of medical services may be grouped together under one class, such as Connecticut where other practitioners', clinic, laboratory and radiological, home health, and family planning services are included in other care, and South Carolina, where skilled nursing facility services include payments to State mental institutions. Included in hospital services (inpatient and outpatient) are $588,204 for mental institutions for Connecticut.

10. For some States, difference in vendor payment amounts between Table 3 and Table 5 are due to inclusion of retroactive adjustments which can be reported by type of service (Table 5) but which are not applicable to the recipients reported in Tables 2, 4, and 6-9. For the current month, however, expenditures for Michigan exclude accounting adjustments of $43,820.

Annotations specific for Screening Tables 15-20

11. States omitted from tables either did not report on screening services for January 1977 or there were no individuals screened during the month.

12. California reported 101,578 individuals receiving comprehensive physical examinations in addition to the screening data. Maryland reported 46 individuals screened in HMO's, but such cases were not reported by age.

13. Data for Illinois, Ohio, Rhode Island, and Vermont are incomplete. For Rhode Island, data include 118 newborns, for whom payments are reflected in physicians' or hospital services. Texas data do not include dental screenings which are performed separately.

14. Payments for screening services were not reported by Massachusetts, Maryland, and Puerto Rico, and payments for Idaho, Michigan, Pennsylvania, Texas and the Virgin Islands were not reported separately by age.

TABLE I TOTAL AMOUNT OF MEDICAL PAYMENTS UNDER TITLE XIX OF THE SOCIAL SECURITY ACT BY FORM OF PAYMENT AND BY HEW REGION AND STATE (JANUARY, 1977)

HEW REGION AND STATE	TOTAL	FORM OF PAYMENTS: DIRECTLY TO VENDOR OR THROUGH FISCAL AGENT	PREMIUM OR PER CAPITA PAYMENTS INTO/TO: AGENCY POOLED FUND	SSA SYSTEM, FOR AGED RECIPIENTS	SSA SYSTEM, FOR DISABLED RECIPIENTS	HEALTH INSURING AGENCY	HEALTH MAINTENANCE ORGANIZATION
